DO YOU...

Live or work with children (or adults!) who push your buttons on a regular basis? Feel like no matter how hard you try, challenging behaviors only get worse? Wish you had a way to help the people in your life THRIVE while also feeling more in control and at peace? If you answered YES, then this is for YOU!

At this Nurtured Heart Approach® workshop, I will help you learn how to build healthy relationships that *celebrate* the intensity of the people in your life. I will provide you tools to create Inner Wealth® in others to help them transform their behavior from negative and destructive to successful and positive.

Email any questions to: NicoleSemmensNHA@gmail.com

The Nurtured Heart Approach® is a relationship-focused methodology founded strategically in The 3 Stands™ for helping children (and adults) build their Inner Wealth® and use their intensity in successful ways. It has become a powerful way of awakening the inherent greatness in *all children* while facilitating parenting and classroom success. The essence of the Approach is a set of core methodologies originally developed for working with the most difficult children. It has a proven impact on every child, including those who are challenged behaviorally, socially and academically. The Nurtured Heart Approach® has also been shown to create transformative changes in children diagnosed with ADHD, Oppositional Defiant Disorder, Reactive Attachment Disorder and other behavioral, emotional and anxiety related symptoms – almost always without the need for long-term mental health treatment. Even children experiencing social cognitive challenges, like Autism Spectrum Disorder and Asperger Syndrome greatly benefit from the Approach, reducing the need for traditional mental health and medical interventions”
